PROFESSIONAL SUMMARY

Senior Software Developer with 5 years of experience as architect, developer, and analyst. Skilled in project delivery, release management, and leading support teams. Detail-oriented and organized, thrives under tight deadlines, and contributes effectively to team success.

WORK HISTORY

Senior Software Developer, 06/2024 - Current

LSS – Amman

- Developed and maintained scalable applications using Java and Spring, enhancing system performance and user experience.
- Collaborated with cross-functional teams in Agile environments to deliver high-quality software solutions on time.
- Implemented automated testing frameworks, significantly improving code quality and reducing time spent on manual testing.
- Analyzed user feedback to refine features and drive product improvements, resulting in increased user satisfaction.
- Mentored junior developers on best practices in coding and design, fostering a culture of continuous learning.
- Integrated APIs to enhance application functionality, improving overall system interoperability.
- Integration APIs with INFOR M3

Software Developer, 01/2021 - 06/2024

LSS – Amman, Jordan

- Developed and maintained web applications using web form and APIs, improving user experience and engagement.
- Collaborated with cross-functional teams to deliver software solutions, enhancing project outcomes and timelines.
- Implemented Agile methodologies to streamline software development processes, increasing team efficiency and productivity.
- Conducted code reviews and provided mentorship to junior developers, fostering a culture of continuous learning and improvement.

Some Projects

- **Factory Track App** – Web application integrated with Infor M3 to manage and streamline the entire orders process, providing real-time visibility and automated workflows - .NET CORE/PHP APis
- **Employee Violation System** – End-to-end system for recording, tracking, and managing employee violations with dashboards, approvals, and HR compliance support - JAVA / Android
- **Tracking Portal** – Large-scale portal integrated with TrackLink offering 60+ functions for fleet management, tracking, and reporting with real-time insights - ASP.net/PHP APis
- **PO Approval App** – Workflow-based app integrated with Infor M3 to handle multi-level purchase order approvals, status tracking, and notifications - ASP.net/PHP APis
- **Bus Movement App** – Manages bus requests, scheduling, approvals, and tracking to ensure efficient usage and visibility - ASP.net/PHP APis
- **Power BI Reports** – Interactive dashboards and reports covering operations, HR, logistics, and finance to support data-driven decisions.
- **Work Orders App** – Infor M3–connected system for submitting, tracking, and logging work orders and asset issuance for full operational traceability - PHP APIs

Education

Bachelor's Degree: Software Engineering, 09/2019
Al-Zaytoonah University of Jordan - Amman, Jordan

Skills

ORACLE DATABASE	ORACLE FORM BUILDER
ORACLE REPORT BUILDER	Agile methodologies
User feedback analysis	Project management
Team leadership	Software documentation
Application development	Software architecture design
System integration	Database design
Full-stack development	.NET development
SQL integration	Time management
Teamwork and collaboration	Communication Skills
Multitasking	C#,JAVA,PHP APIs,JS,SQL
